losses slightly prevailing. Three stocks, Federal Steel, Brooklyn Rapid Transit and Manhattan figured for nearly half the total sales on the exchange, which were not much below a million. Fears of trouble over the Samoan situation gave a generally easier tone to the early market, which subsequently advanced under the leadership of the Flower stocks and Manhattan and Sugar, but later eased off again on the very high rate for money, 12 per cent. being charged before the close for call loons. The banks early in the day advanced the call rate to 6 per cent. Many brokers and traders had made early provision for loans, which carried with them over until Monday. On the stock oxchange, the rate advanced to 12, and the last loan was 5½. These fluctuations were reflected in the variable and nervous movements in many stocks.

Washington advices that the Samoan complications were not serious, together with the confident manipulations of some of the specialties were coincident with some of the highest prices for the day for these stocks. Federal Steel on the largest dealings of any one stock, advanced 7½, closing at the highest, The preferred sympathetically rose 1½. Brooklyn Transit, which has been very active and strong all week, close@practically unchanged, although at one time it was up 3 points and at another as much below last night. People's Gas, another Flower specialty, moved similarly, but on less wide fluctuations, likewise closing about unchanged. There was no news attending the movements in these properties, but a circumstance which attracted much attention was the gradual droop of the railway stocks, which were affected by the stringent monet my situation and in a measure were also influenced by the divergence of active operations into the specialities. Rumors of a possible co-operative arrangement between Manhattan and Metropolitan, raised the former 5¼, the highest quotations being at the close, and Metropolitan, raised the former 5¼, the highest quotations being at the close, and Metropolitan, The maricet c

Third Avenue, too, rose five points in expectation that the company's interest would not suffer as much as anticipated by impending legislation. Sugar relained 2½ points of the six point rise coincident with the advance in the resined article. Continental Tobacco made a fractional advance after a large recession in the early trading. The mairiest closed with a heavy undertone. Business in bonds fell off considerably to-day and some weak spots dropyed out. The main tendency of prices, however, was loward a higher plane, with the Atch sons and St. Louis Southwestern issues in good demand. Total sales of stocks were 254400.

### The Cotton Markets.

NEW YORK COTTON MARKET.

New York, March 30.—Speculation in cotton was very slack to-day, local traders having aiready evened up their accounts in anticipation of the closing of the New York exchange to-morrow and Saturday, and the closing of the Liverpool exchange to-morrow and Saturday, and the closing of the Liverpool exchange to-morrow saturday and Monday. Local covering and liquidation, upon about even terms, were features of to-day's trading. There was very little outside interest either one way or the other after some foreign buying orders had been filled. These orders made their appearance on the opening call, and with better English cables than had been looked for, and light receipts, they caused a steady opening at an advance of 162 points. Later the market ruled easier and generally quiet. From the highest to the lowest prices of to-day the range was a matter of four points on the more active positions. Weather news, while somewhat conflicting, made a bullish impression on the market. The official map indicated frosts for parts of the Atiantic localities, but elsewhere conditions were, for the most part, favorable, and planters were reported to be pushing field work energetically. The market was finally steady, 1 to 5 points net higher.
